Sherwani IT Solutions (Pvt.) Ltd.

Profile

I.T, Network Infrastructure & Telecommunications

We provide Installations for Data & Voice Cabling, network installation, and network maintenance & structured cabling. Our premise design and installation specialists bring to your project a perfect blend of high technology and Latest fashioned work ethics and workmanship. We take particular pride in maintaining all our cables and systems. Let our skilled professionals engineer a state-of-the-art network infrastructure so your company can function at maximum efficiency. We do all the telecommunications tasks required within a firm or an organization to the needs of the customer. We deal with analog and digital PABX systems, IP telephony, high speed internet solutions, and wireless solutions.

STRUCTURED CABLING SYSTEM (SCS)

Structured cabling systems are becoming increasingly complex and sophisticated, meeting greater demands and workloads. With emerging connectivity developments in hardware and software, structured cabling system tolerances are becoming ever more stringent. A networks physical infrastructure must incorporate security and integrity into its inherent design, as well as the ability to adapt to changes in technology. SISS experienced and dedicated team provides an end to end service from design to implementation. SISS designs and builds cabling infrastructure systems that support multiple voice, data, video and multimedia systems.
